For over 25 years, a group of the world’s leading experts have been seeking pragmatic solutions to global food security questions.

Serious challenges confront us – the sustainable production of food to meet the world’s growing needs in changing climatic conditions.

IPC provides:

- **Networking** with experts in food, international trade, development, resource use, and other fields.
  - IPC members are a diverse group of global agribusiness executives, NGO and civil society representatives, farm leaders, world renown academics, and seasoned policymakers.
- **Access** to the latest ideas and trends.
  - IPC members discuss the impact of these on the global food system, the environment, trade, our businesses.
- **An objective, honest, science-driven organization’s view and vision.**
  - IPC members develop policy analysis and recommendations to create a more open, equitable, productive and sustainable global food and agricultural system.
- **The opportunity to contribute** to that vision and work with us to inform and communicate ways to a more viable future.
IPC convenes influential policymakers, agribusiness executives, farm and civil society leaders, and academics from around the world in order to clarify complex issues, foster broad stakeholder participation in policy deliberations, and build consensus around pragmatic policy recommendations.

Our focus is on:

✓ Efforts to increase agricultural production hand in hand with practices that are sustainable;
✓ Addressing distorted agricultural policies that hinder improved food security;
✓ Fostering development policies to spur economic growth and investment in the food and agricultural sector, leading to poverty alleviation;
✓ Adoption of trade policies that reduce risk to the global supply chain.

Developing better solutions for a stronger future is a satisfying return on investment.
Recent IPC activities have included the following.

Policy Analysis
- A Post-Bali Food Security Agenda (with ICTSD)
- Food Security: New Market Variables and Rational Public Policy Choices
- Achieving a Successful Outcome for Agriculture in the EU-U.S. Transatlantic Trade and Investment Partnership
